

### Corporate Expeditions

Crocodile Racers offers the all-inclusive solution;

- Team building and incentive expeditions.
- Corporate hospitality
- Conferences solutions

We are very well placed to advise on the ideal venue for corporate incentive days and to suggest ideas for team building exercises, employee motivation, staff rewards and other corporate needs. Our selection of luxury safari lodges & hotels offer the perfect balance between stylish surroundings and modern infrastructure.

Our approach is to inspire and motivate executives by providing totally new experiences.

We combine our extensive expedition experience with valuable experience from the corporate environment. Our most senior staff have held management positions within large corporations. This puts us in the unique and enviable position of being able to combine radically different experiences to create bespoke teambuilding packages to meet the needs of your organization.

Our clients range from Schools, Non-governmental Organizations (NGOs) to some of the largest and most respected organizations in East Africa. Our innovative programmes can vary from short 'in-office' experiences to multi-day challenges leading groups to the peaks of some of the highest mountains in East Africa.

We propose a one on one discussion initially to assess your needs and expectations. We are extremely flexible in terms of location and budget. Our most popular programmes are diverse and would easily incorporate unique activities available on suggested locations.

### **Our Training Programmes**

Our training programmes take people out of their normal work environments to adopt enjoyable and refreshing approach to encouraging teams to work together toward a common goal. Our objective is to help you find the program that best fits your needs and goals, smoothly and effortlessly. These include:

#### **Innovative Games**

Often include a training module. They are customized activities that are created as metaphors for the workplace and build skills through an interactive, hands-on approach. Some include a de-briefing session, which is a short moderated discussion following the play portion. Some work well with no de-briefing whatsoever. Customized de-briefings can also be designed for your needs.

#### **Competitive Play**

Some teams just like to compete and here are some of the most unique team competitions that you'll find. All of these programs are professionally facilitated and customized to your group providing greater communication and interaction between team members.

#### **Cooperative Team bonding**

You've gotten this far and are now looking for something a little more than just fun. These team bonding programs are designed to get your group working and playing together as one team. Whether you choose the treasure hunt where everyone wins or the Mission Impossible where working together is required to succeed, these programs deliver results.

#### **Team Bonding by Theme**

Team bonding starting out just offering team building workshops until our clients asked for more. Now we have sub-divisions that focus on specific types of team building from our scavenger and treasure hunts to our newest Team Harmony music programs. You can also find programs here that are just for laughter and fun.

During the facilitations, we ask the team a series of open-ended questions related to the challenge they have just completed and encourage them to recognize their strengths and weaknesses in meeting the challenge. The sort of questions we ask describes what went well in this task. How could we relate the way we planned for this task Vs the way we plan in our organization?

Take your team outside of their current parameters, challenge them in a refreshing way and see them thoroughly enjoy this growth experience. Our outdoor development programmes do wonders for confidence of individuals and bring teams together to perform in ways their managers never thought possible.
